### **GENERAL FACILITY INFORMATION**

MUST University's administrative offices and main facility have been specifically designed for instruction and features classrooms organized primarily for small-group instruction.

A student lounge is located in the University's main campus for our students' convenience and comfort. In order to maintain a proper academic atmosphere in the classrooms and laboratories, the administration requests that all eating and drinking be restricted to this area and that cell phones be turned off while students are in the classrooms. Campus buildings are designated smoke-free areas for the health and comfort of our staff and students. Designated smoking areas are located out-of-doors.

In case of emergency, a continuous alarm sound is the signal to evacuate the building. Please be sure to pick up your personal possessions to the extent the emergency allows, and leave the building in an orderly manner, according to the evacuation maps located in each room.

### **METHODS OF DELIVERY**

MUST University is currently offering all its programs via distance education delivery. Students enrolled in Distance Education Programs have access to equivalent resources as students enrolled in residential programs. MUST University provides and supports students, faculty access and user privileges to sufficient and appropriate library collections, as well as to learning resources consistent with the programs offered.

Distance Education programs at MUST University facilitate interaction between faculty/student and student/student. The methods of interaction include: online lectures, emails, document sharing, chat rooms, forums, webinars and "coffee rooms" arranged exclusively for student meetings, academic advising sessions, and tutoring.

Students enrolled in distance education program(s)/course(s) of study have access to services to which in-campus students typically enjoy, and such services cover areas such as coping skills, career development, budget and personal financial planning skills, general development, academic advising, testing, supervision and monitoring of attendance and leave of absence, graduate employment assistance and more.

## DISTANCE EDUCATION STUDENT ORIENTATION

Distance Education students are required to complete a new student orientation. The orientation program, held prior to the first day of each term, is designed to facilitate the students' transition to MUST University and to help familiarize new students with the organization and operation of the University. During orientation, students review the mission, vision, rules, and regulations of the University. Additionally, study techniques, academic standards, graduation requirements, and counseling resources are discussed. All new and transfer students are required to attend orientation.

MUST University uses the Moodle learning management platform for the delivery of the University's online programs. The platform also provides learners with tutorials that guide them on the different ways they can interact online. Users will be shown a wide variety of activities they could complete once the course starts. Video tutorials and student guides are also uploaded and available for all students to use.

### Hardware/Software Requirements for Students

The material needed for students (syllabus, PPT'S, PDF'S, links, tailor-made activities, etc.) are posted on the platform once the course begins. The distance learning platform requires specific features to "carry out" different tasks. Thus, students and professors should have a device that meets the following standards.

<b>HARDWARE</b>	<b>SOFTWARE</b>
<b>PENTIUM D OR HIGHER. RECENT. 1 GB MEMORY RAM OR HIGHER. [1024X728] VIDEO RESOLUTION FIXED OR WIRELESS INTERNET ACCESS (AT LEAST 1MB/S). MACROMEDIA FLASH PLAYER. MICROSOFT OFFICE OR OPEN OFFICE.</b>

## **Technical Support**

Technical support on the use of the platform is available at students' and professors' request throughout the course and provides information about course activities and how to use the platform tools. We seek to acknowledge our students' inquiries as soon as possible, being 24 hours the maximum time our technical support contacts our students. In addition, our platform enables users to address any technical concerns they may have related to the Virtual Classroom. Our platform also provides "online support" to make changes or adjustments.

If users were unable to access our platform or cannot complete an activity due to technical reasons, they can request technical support by contacting Support via E-mail from Monday to Sunday 24/7. A Technical Support Hotline is available on the University's webpage, along with a most frequently asked questions section.

## **Academic Support**

By accessing the MUST University's Virtual Classroom, students are in constant contact with professors.

### **ATTENDANCE POLICY**

MUST University is a non-attendance taking institution. However, students are expected to attend classes virtually as scheduled. If a student is forced to be absent for any reason, it is recommended that the student consult with the instructor, in advance, if possible, to establish how and when to make up missed coursework. There are no charges to make up work.

Virtual attendance and student participation will be monitored from time to time.

### **LIBRARY RESOURCES**

The library at MUST University facilitates and expedites access to information using adequate, sufficient, and relevant resources to support the programs offered. MUST University has established an account with Library Information Resource Network (LIRN), and the student will receive access so they can utilize the sources available at anytime and anywhere. The main campus has both desktop computers with Internet access and appropriate application/software technology available to the students from Monday to Friday from 9:00 am to 6:00 pm.

## **STUDENT SERVICES**

### **Counseling**

Counseling is available to all students for career and academic reasons. Counseling is sincere, friendly, and always confidential. MUST University maintain contacts with various community organizations and agencies to help meet students' personal needs. Students with issues of a personal nature will be referred to local public or private agencies for professional assistance.

### **Career Services**

Students may have the opportunity to participate in student activities, organizations, leadership programs, as well as career development activities and resources. Through MUST University's academic department, students learn the requisite skills for their career, and through the Student Affairs Department they are instructed on the career preparatory activities as resume preparation, mock interviewing, career fairs, and professional networking.

### **Student Records**

Students should be aware that student records submitted to MUST University become the property of MUST University and shall not be released to third parties. The student records will be held indefinitely. A hold shall be placed on the records of any student that owes an obligation to MUST University. A student may not register or receive a transcript from MUST University until all obligations are paid in full to MUST University and the hold is properly removed. Removal of a hold may take approximately two (2) business days.

### **Housing**

MUST University does not maintain housing for students but provides information and resources about local apartments and rental opportunities for students interested in living near campus. Students should first contact their campus Admissions Department. MUST University campus is located along major traffic arteries to allow easy commuting for students.

### **Graduation**

MUST University commencement ceremonies are held annually. Students are eligible to participate if they satisfactorily complete academic requirements for the program in which they are enrolled at least one term prior to the commencement ceremony. To graduate from MUST University and participate in commencement exercises, students are required

complete a graduation application, request participation in the ceremony, and complete all required University and departmental exit interviews.

### **Transcript Requests**

Student transcripts are permanently maintained at the University and are available from the Registrar Office. One copy of the official academic transcript is provided to each student upon program completion and satisfaction of all financial obligations to the school. Provided a hold does not exist, students may request, in writing, additional copies of transcripts from the Registrar for a fee.

### **Amendment of Records**

A student who believes that information contained in his or her records is inaccurate, misleading, or in violation of the privacy or other rights of the student, may request that MUST University official who maintains the records amend them. MUST University will decide whether to amend the education records of the student in accordance with the request within a reasonable period of time of receipt of the request. The official who maintains the records has a responsibility to consult with appropriate officials of MUST University for further determination or confirmation. If MUST University decides to refuse to amend the education records of the student in accordance with the request, it will so inform the student of the refusal, and advise the student of the right to a hearing.

### **Discrimination and Harassment Policy**

MUST University prohibits discrimination or harassment based on race, ethnic or national origin, religion, age, sex, color, physical or mental condition, marital status, or veteran status under any program or activity under its purview. Sexual harassment includes harassment based on gender, pregnancy, childbirth or related medical condition, and inappropriate conduct of a sexual nature. It is MUST University's policy that all persons should enjoy freedom from unlawful discrimination of any kind as well as from sexual harassment or retaliation for reporting a complaint.

### **Academic Dishonesty**

Academic dishonesty refers to committing or contributing to dishonest acts by those engaged in teaching, learning, research, and related academic activities, and it applies not just to students, but to everyone in the academic environment. **MUST University considers academic dishonesty a serious offense, regardless of whether it was committed intentionally or not.** (Please refer to section entitled General Institutional Guidelines).

Forms of academic dishonesty include cheating, plagiarism, fabrication and falsification.

Plagiarism is defined as the use, without proper acknowledgment, of the ideas, phrases, sentences, or larger units of discourse from another writer or speaker. Plagiarism includes the unauthorized copying of software and the violation of copyright laws. Students who commit plagiarism will obtain a grade of F "Failure" on their exam or assignment. The student may also receive a failing grade for the course.

Cheating is defined as the attempt, successful or not, to give or obtain aid and/or information by illicit means in meeting any academic requirements, including examinations. Cheating includes falsifying reports and documents. Cheating involves unauthorized use of information, materials, devices, sources or practices in completing academic activities. A student who allows another student to copy from his or her work is considered to be facilitating or contributing to cheating.

Fabrication or falsification involves the unauthorized creation or alteration of information in an academic document or activity. For example, artificially creating data when it should be collected from an actual experiment or making up a source of information that does not exist is considered fabrication or falsification.

All students, whether online or on campus will be required to submit their work through the online learning management platform. Work will be verified for authenticity before it is submitted to the professor.

#### **Procedures for Handling Academic Dishonesty**

Procedures for handling academic dishonesty are outlined in Article V of the section in the handbook entitled General Institutional Guidelines.

#### **Responsibilities of Students Concerning Academic Dishonesty**

1. Students are responsible for knowing the policies regarding cheating and plagiarism and the penalties for such behavior. Failure of an individual faculty member to remind the student as to what constitutes cheating and plagiarism does not relieve the student of this responsibility.
2. Students must take care not to provide opportunities for others to cheat.
3. Students must inform the faculty member if cheating or plagiarism is taking place.
